Work Experience

Mononym, Brooklyn, NY | Software Engineer (Self-Employed) | 03/2022 – Present

- Building web applications and content-rich CMS websites for clients, using React, Sanity CMS, Vue, Node.js, Firebase, AWS, Shopify Storefront API.
- Prior client work includes e-learning web applications, e-commerce, and marketing websites.
- Creating unique web app solutions using AWS AppSync and DynamoDB

Upstatement, Boston, MA | Software Engineering Apprentice | 04/2018 – 09/2018

- Built and launched web applications and CMS backed sites from inception to creation, using Vue, React, Prismic, Contentful, and Wordpress.
- Clients included MIT's The Engine, PBS Newshour, Emergence Capital.
- Created AWS Lambda / serverless functions for forms on static pages.

Weebly, San Francisco, CA | Software Engineering Intern | 06/2017 – 11/2017

- Worked with the e-commerce product team to engineer reusable components for seller platform.
- Assisted in migrated engineering team from existing API from monolith to new microservices.
- Worked autonomously to improve code quality and modularity and business logic.

TCNJ Enterprise Applications, Ewing, NJ | Web Developer | 10/2015 – 01/2016

- Managed the universities Oracle SQL people management database.
- Developed SQL scripts in a PHP environment to perform queries and validation.
- Built custom web tools to enable HR to update databases with ease.

Media & Tech Support Services, Ewing NJ | Media Tech | 09/2014 – 10/2015

- Provided in-person technical support for The College of New Jersey's faculty for urgent media and audio/video equipment.
- Debugged advanced issues for Crestron systems, including RS-232 wiring and software interface bugs.
- Managed and maintained the college's A/V inventory for events and classrooms.

Recent Projects

Mononym [link](#)

Next.js marketing site for my web development services.

J. Cheong Portfolio [link](#)

Created a website to demo a designer's portfolio. Used React, Gatsby, Tailwind, and Sanity CMS.

Aloe Health [link](#)

React single-page marketing site for a health start-up.

Remyhunt.net [link](#)

Personal homepage - Built with Hugo, Tailwind, and ES6. Statically hosted on Netlify.

Colorways [link](#)

Demo site for point color extraction, packaged with NPM.

Education

The College of New Jersey | Coursework in B.S. Computer Science | 08/2013 – 06/2015

Activities: TCNJ ACM Chapter, Mobile Application Development Club, Association for Music Production & Discussion. *Courses:* Programming Languages, Discrete Mathematics, Calculus, Computer Architecture, Algorithms, Linear Algebra, Statistics.
